

run. There is no installing the software simply put the file anywhere and run it (Mine is on the desktop)

DTMF

Enter the DTMF code that you want your user to use for each of the text fields.

Help Description

Enter the text that you want the users to hear when the corresponding DTMF has been received. Up to 1000 characters can be entered per field

Test Button

To the right of the Help Text field there is a small button that can be used to test what you have typed in. You may need to adjust your text to make it sound right.

Save

This button will save all your changes

Exit/Save Data

This button will save all your changes then exit the program.

I hope you find the program useful

Donations are always welcome to help with the upkeep and advancement of the Repeaters & Software
