

VIBROPLEX - IAMBIC

VIBROPLEX®

"Since 1890 - the oldest name in amateur radio"

Description

The Vibroplex Iambic is the modern descendent of the Original Bug. It incorporates the traditional Vibroplex look for use with modern electronic keyers. The same crisp operation at 5 wpm as 50+ wpm. The code speed with the Iambic depends on electronic keyer used. The Iambic paddle allows the user to benefit from the automatic dot/dash insertion of the modern keyer while maintaining the quality and tradition.

Standard

Black textured finish base with bright chrome top parts. Non jeweled movements.

Deluxe

Polished chrome base with bright chrome top parts. Jeweled movement.

Presentation

24K gold plated brass plate on a polished chrome base with bright chrome top parts. Silky smooth, jeweled movements.

Gold

The entire base is 24K gold plated with bright chrome top parts (stainless steel hardware where appropriate). Smooth jeweled movements for premium control.
