

Two Way Radios For Personal and Professional Use

TWO WAY RADIOS AND ELECTRONICS SINCE 1976 !

In the world of the young and fast moving electronics community INTEK may be certainly called an "old" company, as its establishment dates back to thirty three years ago, exactly on february 1976. Since then our mission has been the design, development and production of advanced and competitive two way radios and RF communication devices for both consumer and professional use.

By combining a almost unique thirty two years experience and excellent know-how in the two-way radios area with a deep market understanding as a European based and integrated company, INTEK is offering a number of original products that perfectly match all the exact wishes and requirements of western and eastern European customers, like no other Asian manufacturers can do.

Currently a team of about 50 enthusiastic people provide their services and efforts in what we call "the project", among them several engineers hardly and carefully work daily to create products and making ideas become real things as well as business opportunities for all our customers, in as short as six-to-eight months time since the first idea is born and the first sketch is drawn.

Our product range includes 27 MHz CITIZEN BAND radios, AMATEUR RADIO transceivers, LPD433, PMR446, VHF and UHF commercial LMR radios, VHF MARINE transceivers, antennas and accessories.

Currently **INTEK ELECTRONICS (CHINA) LIMITED** based in Hong Kong is handling and controlling all the developing and manufacturing processes in China (Shenzhen and Dongguan factories) and in some other Asian countries while **INTEK S.R.L.** based in Italy is handling the worldwide distribution and export sales, as well as all the necessary type approval tests and certifications.

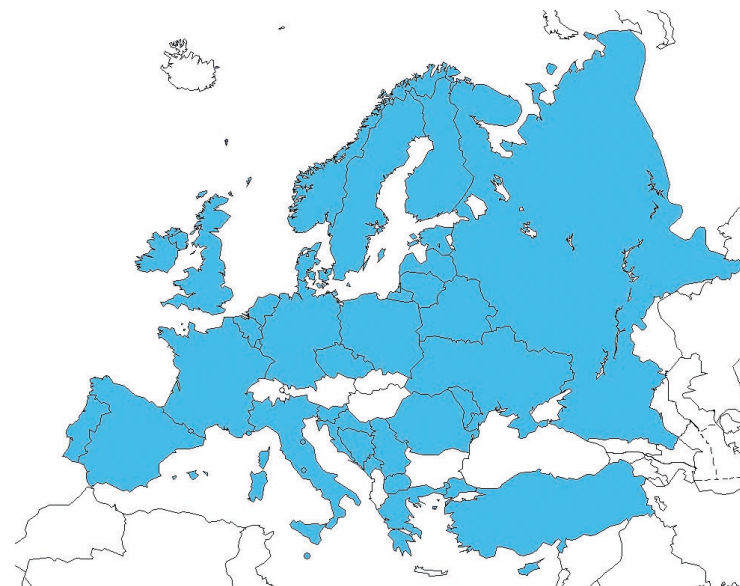

INTEK S.R.L. headquarters in Segrate, Italy

SALES NETWORK

INTEK products are distributed to and available in all the European countries and in some other non European countries, through selected exclusive distributors.

Please contact our sales office for full details.

INTERNATIONAL DISTRIBUTORSHIP AVAILABLE

Most of the products in this Catalogue are original INTEK products, entirely designed, developed and exclusively produced by or for INTEK. We welcome inquiries from international buyers who would like to distribute these products in their markets. Exclusive distributorship is still available in some countries. Please contact us for full details at info@intek-radios.com or intek.com@intek-com.it

INTEK M-120 PLUS

NEW !

MULTI-STANDARD CB TRANSCEIVER

- 9 Bands (CE version)
- 12 Bands (International version)
- 3-Digit LED Band/Channel Display
- Up to 450 Channels in one band, including 50 intermediate Alpha channels (International version)
- Manual or Auto (fixed) Squelch
- 3W Speaker
- New soft type microphone cord

INTEK M-120 PLUS F/K

NEW !

MULTI-STANDARD CB TRANSCEIVER READY-TO-START FULL KIT

New "all-you-need" and "ready-to-start" FULL KIT mobile CB radio package, includes the following items :

- CB Transceiver INTEK M-120 PLUS
- 12V Car Lighter Adaptor Plug
- CB Car Magnet Antenna

Be on the air in just 60 seconds !

INTEK H-512 PLUS

NEW !

MULTI-STANDARD CB HANDHELD TRANSCEIVER 4W AM/FM

also available
model

INTEK H-510 PLUS 4W AM 5 Bands (CE) 7 Bands (Int)

- 8 Bands (CE version)
- 10 Bands (International version)
- 3-Digit LCD Band/Channel Display
- Lock, Hi-Lo TX Power, Battery Level Indicator
- Advanced Mosfet Transmitter
- Manual or Auto (fixed) Squelch
- Optional Mobile Car Adaptor

NEW !

INTEK HT-446S

PROFESSIONAL PMR446 TRANSCEIVER

- 199 Channels
- Output Power 0.5W (CE), 4W (Int)
- Wide/Narrow Bandwidth selectable
- Fully PC programmable
- VOX, TOT, PS, Scan, Priority, BCL, Cloning
- Channels Naming / ANI
- Scrambler (Optional)
- 50 CTCSS + 107 DCS Tones

NEW !

INTEK HX-446S

PROFESSIONAL PMR446 TRANSCEIVER

- 199 Channels
- Output Power 0.5W (CE), 4W (Int)
- Wide/Narrow Bandwidth selectable
- Fully PC or Keypad programmable
- VOX, TOT, PS, Scan, Priority, BCL, Cloning
- Channels Naming / ANI
- Scrambler
- 50 CTCSS + 107 DCS Tones

NEW !

INTEK MT-3030

PMR/LPD DUAL STANDARD PAIR SET

- 69 LPD Channels + 8 PMR Channels
- Scan, Dual Watch, VOX Baby Monitor
- 38 CTCSS Tones
- Lock, Program Tone, Roger Beep, Call
- Full set includes 2 x Walkie-Talkie, Ni-MH Battery Pack, 230VAC Adaptor, Earset-Microphone

Communicating with two-way radios is easy, efficient, immediate !

The following information may help you to identify what kind of two-way radios should be used, in order to meet your specific requirements and type of use, personal or professional.

CB

CB (Citizen Band) 27 MHz radios are very popular and well known as they are used by every truck driver during their driving time along freeways and highways, allowing them to be promptly informed of any possible problem on the way or to ask for assistance. These radios are available both as handheld and mobile units and they may also be used for various personal purposes. Friends within even a large city may communicate among their group. Communication range may cover several kilometers distance, depending on the location of the stations and the environment. Transmitter power is 4W. CB radios are usually license free, however please check local regulations before operating these radios. INTEK is the world largest manufacturer and supplier of Multi-Standard CB radios for the European market, with a product range currently including 11 models, mobile and handheld.

43 MHz

VHF FM 43 MHz radios operates on the special frequency band of 43 MHz and are used in some countries for commercial purposes only, personal use is not allowed on this frequency band. Up to 224 frequency channels are available and the maximum transmitter RF output power is 20W (on mobile radios) or 4W (on handheld radios). Please check local regulations before operating these radios.

VHF 144 MHz AMATEUR

VHF FM 144-146 MHz amateur radios are exclusively reserved to amateur radio operators (OM), having a special license to use these radios. The operating range depends on the location of the station on the environment, it may cover even some hundreds kilometers. INTEK is offering digital handheld transceivers and an extended range of optional accessories. As for any other radio communication device, please check local regulations before operating these radios.

VHF / UHF COMMERCIAL

VHF (148-174 MHz) and UHF (440-470 MHz) commercial radios are reserved for business and professional radio communication. These radios, available as handheld and mobile units, include advanced features in order to match various applications, such as commercial, safety, industry, construction sites, hotels, resorts, hospitals, large stores, etc. Transmitter high RF power, selective calls coding, channel naming and caller identification, scrambler devices, high capacity battery packs and quick electronic chargers. All INTEK models are fully programmable by PC and users can program and store frequencies and every other specification on each channel. The use of these radios is usually subject to an individual license, please check local regulations with your dealer before operating the radios.

PMR446 PROFESSIONAL

PMR446 (446 MHz) (PMR = Personal Mobile Radio) radios are license free devices that provide UHF high frequency quality communication within an operating range of approximately 3 to 10 kilometers depending on location of the stations and environment. These radios are features packed high quality units, fully programmable by PC and can be compared to the commercial VHF/UHF radios. PMR446 radios have become very popular today as they are suitable for professional use, although being are license free devices. Transmitter power is 0.5W (CE version) and 4W (Intern. version). Please check local regulations before operating these radios.

PMR / LPD SEMI-PROFESSIONAL

Semi-professional **PMR446 (446 MHz)** (PMR = Personal Mobile Radio) radios are similar as the professional models and allow the same high quality two-way communication, however the features list is less extended and operation is more user friendly and simple. The cost is competitive and the use of these radios is very convenient in a wide range of personal and professional applications. The maximum transmitter power is 0.5W (CE versions) and 4W (International versions). Please check local regulations before operating these radios.

PMR / LPD WALKIE-TALKIES

Consumer type **PMR** and **LPD Walkie-Talkies** are usually available as pair sets, some models also include a full set of accessories (rechargeable batteries, chargers, earsets, etc.). Dual Standard models can operate on both the PMR446 band (8 channels) and on the LPD433 band (69 channels). Users must operate radios only on the band allowed in their country. Please check local regulations before operating these radios. These radios can be easily used by almost anyone, including children or old people and are suitable for a wide choice of purposes, as leisure, sport, camping, biking, trekking, shops and stores, baby room or old people monitoring, etc. Available in department stores. Please check local regulations before operating these radios.

MARINE

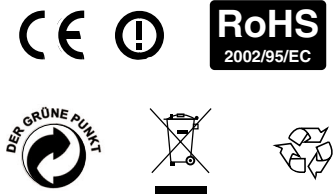

VHF FM marine radios are exclusively reserved to marine ship-to-shore or ship-to-ship radio communication. INTEK marine radios include all US/Canada/International/Weather channels and all the usual features for marine radio operation (CH16, Scan, Dual Watch, Power Save, memory channels, Lock, adjustable squelch level, etc.). Some models may include other advanced features as private channels, CTCSS coding, scrambler device, VOX, handsfree operation, etc. (some features may not be used in certain countries). Please check local regulations before operating these radios.

CUSTOMERS INFORMATION

All INTEK products are in full compliance with the current European CE / R&TTE and RoHS regulations. A Declaration of Conformity is included in each product and the approval marks are printed on the packaging and/or on the user manual.

Full details on the type approval documents may be requested and obtained from our service department.

It is the user's responsibility to check local regulations in the country where radios are to be used, before operating it.

ASQ

CB 27 MHz PROGRAMMABLE MULTI-STANDARD MOBILE TRANSCEIVER

M-120 PLUS is the new replacing model of M-110 PLUS, so far our most popular CB mobile radio. Now with a unique **3-digit band/channel display**, for a clear indication of band ID code and channel number, including the intermediate **Alpha channels** (example 13A). Auto (fixed) Squelch, up to **450 channels in one band** (I/V) and professional construction with multi-layer circuit design. New **soft microphone curl cord** and **3W speaker**.

Main Features

- > 9 Bands (CE version)
- > 12 Bands (International version)
- > 3-Digit Band/Channel LED Display
- > Up to 450 Channels in one band, including 50 intermediate Alpha channels (International version)
- > Manual or Auto (fixed) Squelch
- > 3W Speaker
- > New soft type microphone curl cord

43MHz RADIOS

43 MHz FM MOBILE AND HANDHELD COMMERCIAL TRANSCEIVERS

INTEK SY-5430M

43 MHz FM 4W/20W

43 MHz 24CH 4W (20W) FM MOBILE TRANSCEIVER

43 MHz mobile transceiver with 24 channel FM 4W (CE version) or **224 channel FM 20W** (International version). Very **compact case (14 x 4 cm)** may be easily installed in every vehicle. Feature packed including SCAN, Dual Watch, Hi-Low transmitter power, LOCK, LCR, etc. Large size backlit LCD with digital S/Rf meter and channel or **6-digit full frequency readout**. 5 memory channels and channel selection also on microphone.

Main Features

- > 24 channel FM 4W (CE version) / 224 channel FM 20W (International version)
- > Backlit LCD Display with channel and 6-digit frequency readout
- > Scan, Dual Watch, EMG, LCR (Last Used Channel Recall), CH13
- > Digital S/Rf Meter
- > Condenser Microphone with UP/DOWN channel keys
- > Quick UP/Quick DOWN channel selection
- > 5 memory channels and automatic memory channel scan

Art. 24005430

INTEK SY-343/SY-90

43 MHz FM 4W

43 MHz 24CH 4W FM HANDHELD TRANSCEIVER

43 MHz FM **4W** handheld transceiver with 24 channel (CE version) or **224 channel** (International version). SCAN, Dual Watch, Hi-Low transmitter power, LOCK, LCR, etc. Backlit LCD with digital S/Rf meter, external earset-microphone jack and **compatible with mobile car adaptor** model INTEK CAR-101. Set is complete with 230VAC charger and rechargeable battery case for 9 x AA Ni-MH 1.2V (batteries not included). This handheld transceiver is fully compatible with the mobile version model INTEK SY-5430M.

Art. 24000346

Main Features

- > FM 4W / 24CH (CE version) / 224CH (International version)
- > Backlit LCD Display with Digital S/Rf Meter
- > Scan, Dual Watch, EMG CH13
- > LCR (Last Used Channel Recall)
- > Hi-Low transmitter power selectable
- > External earset-microphone jack
- > Compatible with mobile car adaptor INTEK CAR-101
- > 10.8V battery case may contain 9 x AA Ni-MH batteries (batteries not included)

Full set includes radio, antenna, strap, Ni-MH battery case 10.8V and 230V charger.

INTEK LC-101
SOFT CARRYING CASE

Soft carrying case in leather imitation with PVC transparent window for INTEK SY-343/SY-90.

Art. 36005805

INTEK AC-101
230V ADAPTOR

230VAC adaptor charger for INTEK SY-343/SY-90.

Art. 36005810

INTEK BP-106
9V BATTERY PACK

9V battery pack contains 6 x AA alkaline batteries (batteries not included) for INTEK SY-343/SY-90.

Art. 36005814

INTEK SY-90
10.8V BATTERY PACK

10.8V rechargeable battery pack contains 9 x AA Ni-MH batteries (batteries not included) for INTEK SY-343/SY-90.

Art. 36005820

INTEK CAR-101
MOBILE CAR ADAPTOR

Mobile car adaptor converts INTEK SY-343/SY-90 into a mobile transceiver, power supply is taken directly from the vehicle electric system cigarette lighter adaptor socket.

SO-239 RF antenna connector.

Art. 36005808

144MHz RADIOS

144 MHz VHF FM HANDHELD AMATEUR RADIO TRANSCEIVERS

INTEK KT-370EE

144-146 MHz FM 5W

PC PROGRAMMABLE

144-146 MHz (136-175 MHz) 80CH 5W AMATEUR RADIO 2-METER BAND VHF FM HANDHELD TRANSCEIVER PC PROGRAMMABLE

VHF FM handheld radio with VFO + 80 channels, **fully PC programmable** (with optional programming kit), compact size case and professional construction with **diecast aluminum chassis**. **5W RF power Mosfet transmitter** with minimum current drain. VOX function, simplex or semi-duplex operation. CTCSS and DCS, **selectable narrow/wide channel spacing**. Programmable by PC or direct programming by keypad. Full set includes electronic desk type rapid charger. Backlighted **dot matrix LCD display** with digital S/Rf meter. SMA antenna.

Art. 25002280

Main Features

- > Frequency range 144-146 MHz (136-175 MHz) / VFO + 80 channel / 5W
- > Backlighted dot matrix LCD
- > Channel and 8-digit frequency readout
- > Adjustable RF output power 5W/1W
- > Digital S/Rf meter and battery meter
- > LOCK, CALL, TOT (Time Out Timer)
- > PC programmable functions : channel / frequency / keypad lock manual or automatic / TX power / Squelch level / 38 x CTCSS encoder/decoder / 83 x DCS encoder/decoder / VOX sensitivity / SCAN frequency step / TOT / keypad program tone / LCD backlight
- > Steps 5/6.25/10/12.5/25 KHz

Full set includes main unit, antenna, 1200mAh battery pack and quick desk type charger.

INTEK KT-380EE

144-146 MHz FM 5W

PC PROGRAMMABLE

144-146 MHz (136-175 MHz) 80CH 5W AMATEUR RADIO 2-METER BAND VHF FM HANDHELD TRANSCEIVER PC PROGRAMMABLE

VHF FM handheld radio with VFO + 80 channels, **fully PC programmable** (with optional programming kit), professional construction with **diecast aluminum chassis**. Some 144 MHz channels are factory pre-programmed. **5W RF power Mosfet transmitter** for minimum current drain. VOX function, simplex or semi-duplex operation. CTCSS and DCS, selectable freq. step. **Dial multi-function knob**. Programmable by PC or by keypad. Full set includes electronic desk type rapid charger. Backlighted **dot matrix LCD display** with digital S/Rf meter. SMA antenna.

Art. 25002300

Main Features

- > Frequency range 144-146 MHz (136-175 MHz) / VFO + 80 channel / 5W
- > Backlighted dot matrix LCD
- > Channel and 8-digit frequency readout
- > Adjustable RF output power 5W/1W
- > Digital S/Rf meter and battery meter
- > LOCK, CALL, TOT (Time Out Timer)
- > PC programmable functions : channel / frequency / keypad lock manual or automatic / TX power / Squelch level / CTCSS encoder/decoder / DCS encoder/decoder / VOX sensitivity / SCAN frequency step / TOT / keypad program tone / LCD backlight
- > Frequency step 5/6.25/10/12.5/25 KHz

Full set includes main unit, antenna, 1200mAh battery pack and quick desk type charger.

LMR RADIOS

VHF / UHF HANDHELD AND MOBILE COMMERCIAL LMR TRANSCEIVERS

INTEK MT-174S

136-175 MHz FM 5W

PC PROGRAMMABLE

**136-175 MHz 16CH 5W
VHF FM HANDHELD TRANSCEIVER
PC PROGRAMMABLE**

Professional VHF FM 16 channels handheld transceiver with solid diecast aluminum chassis, suitable for business and professional use. Fully PC programmable (with optional programming kit). **5W RF Mosfet transmitter**, CTCSS, DCS, Time Out Timer, SCAN. Waterproof earset-microphone jack. Full set includes main unit, 7.2V Li-Ion 1200mAh battery pack and desk type automatic quick charger. Rubber flexible SMA antenna.

Art. 26005305

Main Features

- > Frequency range 136-175 MHz
- > 16 channels (factory pre-programmed)
- > 5W RF Mosfet transmitter
- > Adjustable transmitter power 5W/1W
- > 47 CTCSS tones (Encoder/Decoder)
- > 199 DCS tones (Encoder/Decoder)
- > Time-Out-Timer / Low battery warning
- > Dual color RX/TX LED indicator
- > PC programmable functions :
channel / frequency / TX RF output power / Squelch threshold level / CTCSS (Encoder/Decoder) and DCS (Encoder/Decoder) tone / SCAN / Time-Out-Timer

Full set includes main unit, antenna, AT-15 1200mAh battery pack and quick desk type charger.

INTEK MT-174XP

7.4V 1750mAh
Li-POLY BATTERY !
**146-174 MHz 16CH 5W
VHF FM HANDHELD TRANSCEIVER
PC PROGRAMMABLE**

Professional VHF FM 16 channels handheld transceiver with diecast aluminum chassis, suitable for business and professional use. Fully PC programmable (with optional programming kit) and **data cloning** to other units is also available (with optional cloning cable). 5W RF transmitter, CTCSS, DCS, Time Out Timer, SCAN, **narrow/wide channel spacing selectable**. Waterproof earset-microphone jack. Full set includes main unit, **high capacity Li-Poly 7.4V 1750mAh battery pack** and desk type automatic quick charger. Rubber flexible SMA antenna.

Art. 26005351

Main Features

- > Frequency range 146-174 MHz
- > 16 channels (factory pre-programmed)
- > 5W RF transmitter
- > Adjustable transmitter power 5W/1W
- > 38 CTCSS tones (Encoder/Decoder)
- > 83 DCS tones (Encoder/Decoder)
- > Time-Out-Timer / Low battery warning
- > Dual narrow (12.5 KHz) / wide (25 KHz) selectable channel spacing
- > Busy channel lockout
- > PC programmable functions :
channel / frequency / TX RF output power / Squelch threshold level / CTCSS (Encoder/Decoder) and DCS (Encoder/Decoder) tone / SCAN / Time-Out-Timer / channel spacing

Full set includes main unit, antenna, KB-30L 1750mAh battery pack and quick desk type charger.

136-175 MHz FM 5W

PC PROGRAMMABLE

**136-175 MHz 80CH 5W
VHF FM HANDHELD TRANSCEIVER
PC PROGRAMMABLE**

VHF FM handheld 80 channels professional transceiver, **fully PC programmable** (with optional programming kit), professional construction with **diecast aluminum chassis**. Advanced **5W RF power Mosfet transmitter** with minimum current drain. VOX function, simplex or semi-duplex operation. CTCSS and DCS, selectable frequency step. **Dial multi-function knob**. Programmable by PC or direct programming by keypad. Full set includes electronic desk type rapid charger. Backlighted **dot matrix LCD display** with digital S/Rf meter. Rubber rubber flexible SMA antenna.

Art. 26005310

Main Features

- > Frequency range 136-175 MHz
- > 80 channels simplex or semi-duplex
- > 5W RF Mosfet transmitter
- > Backlighted dot matrix LCD
- > Channel and 8-digit frequency readout
- > Adjustable RF output power 5W/1W
- > Digital S/Rf meter and battery meter
- > LOCK, CALL, TOT (Time Out Timer)
- > PC programmable functions : channel / frequency / keypad lock manual or automatic / TX power / Squelch level / 50 CTCSS encoder/decoder / 106 DCS encoder/decoder / VOX sensitivity / SCAN frequency step / TOT / keypad program tone / LCD backlight
- > Frequency step 5/6.25/10/12.5/25 KHz

Full set includes main unit, antenna, AT-15 1200mAh battery pack and quick desk type charger.

INTEK MT-175T

DTMF / 5-TONE
KDC 1200
**136-174 MHz 16CH 5W
VHF FM HANDHELD TRANSCEIVER
DTMF, 5-TONE, KDC 1200
PC PROGRAMMABLE**

VHF FM PC programmable professional transceiver (with optional programming kit), professional construction with **diecast aluminum chassis**. **5W RF transmitter**. **VOX** function, simplex or semi-duplex operation. **CTCSS** and **DCS**, selectable frequency step. Two keys programmable for quick access functions. Selective calls **DTMF, 5-tone, KDC 1200**. Remote killing function. **Emergency call with auto ID** function. Multi-language voice channel annunciator. Full set includes main unit, 1500mAh battery pack and desk type rapid charger. Rubber flexible SMA antenna.

Art. 26005600

Main Features

- > Frequency range 136-174 MHz
- > 16 channels / 5W RF transmitter
- > Adjustable RF output power 5W/1W
- > Emergency CALL with auto ID
- > TOT (Time Out Timer)
- > REMOTE KILLING function
- > DTMF, 5-TONE, KDC 1200
- > PC programmable functions : channel / frequency / TX power / Squelch level / 38 CTCSS encoder/decoder / 83 DCS encoder/decoder / VOX sensitivity / SCAN frequency step / TOT
- > Narrow (12.5 KHz)/wide (25 KHz) channel spacing selectable
- > MIL-STD810 standard

Full set includes main unit, antenna, NMH-40 1500mAh battery pack and quick desk type charger.

(7 CODING FORMATS)

136-174 MHz FM 25W

PC PROGRAMMABLE

136-174 MHz 101CH 25W VHF FM MOBILE TRANSCEIVER
DTMF, 5-TONE, 2-TONE, PC PROGRAMMABLE

Professional VHF FM transceiver, rugged construction with diecast aluminum chassis. **25W RF transmitter**, 99 channels + 2 emergency channels. Fully programmable by PC (with optional programming kit). Selective calls **DTMF / 5-TONE (7 coding formats) / 2-TONE. Voice Compander** circuit (RX and TX) for best quality of communication. Large backlit LCD display, auto Scan with priority channel scanning, Busy Channel Lockout, 3 levels of RF output power (25W/10W/5W), 38 CTCSS + 83 DCS tones, narrow/wide bandwidth selectable, TOT and TOT Pre-Alert. Compact cabinet size mm140x40x145.

Main Features

- > Frequency range 136-174 MHz FM
- > 101 channels / 99 channels + 2 emergency channels
- > 25W-10W-5W transmitter RF output power
- > DTMF / 5-TONE (7 coding formats) / 2-TONE

400-470 MHz FM 4W

PC PROGRAMMABLE

**400-470 MHz 16CH 4W
UHF FM HANDHELD TRANSCEIVER
PC PROGRAMMABLE**

Professional UHF FM 16 channels handheld transceiver with solid diecast aluminum chassis, suitable for business and professional use. Fully PC programmable (with optional programming kit). **4W RF Mosfet transmitter**, CTCSS, DCS, Time Out Timer, SCAN. Waterproof earset-microphone jack. Full set includes main unit, 7.2V Li-Ion 1200mAh battery pack and desk type automatic quick charger. Rubber flexible SMA antenna.

Art. 26005355

Main Features

- > Frequency range 400-470 MHz
- > 16 channels (factory pre-programmed)
- > 4W RF Mosfet transmitter
- > Adjustable transmitter power 4W/1W
- > 50 CTCSS tones (Encoder/Decoder)
- > 106 DCS tones (Encoder/Decoder)
- > Time-Out-Timer / Low battery warning
- > Dual color RX/TX LED indicator
- > PC programmable functions :
channel / frequency / TX RF output
power / Squelch threshold level /
CTCSS (Encoder/Decoder) and DCS
(Encoder/Decoder) tone / SCAN /
Time-Out-Timer

Full set includes main unit, antenna, AT-15
1200mAh battery pack and quick desk type charger.

INTEK MT-460XP

7.4V 1750mAh
Li-POLY BATTERY !
**430-460 MHz 16CH 4.5W
UHF FM HANDHELD TRANSCEIVER
PC PROGRAMMABLE**

Professional UHF FM 16 channels handheld transceiver with diecast aluminum chassis, suitable for business and professional use. Fully PC programmable (with optional programming kit) and **data cloning** to other units is also available (with optional cloning cable). **4.5W RF output**, CTCSS, DCS, Time Out Timer, SCAN, **narrow/wide channel spacing selectable**. Waterproof earset-microphone jack. Full set includes main unit, **high capacity Li-Poly 7.4V 1750mAh battery pack** and desk type automatic quick charger. Rubber flexible SMA antenna.

Art. 26005353

Main Features

- > Frequency range 430-460 MHz
- > 16 channels (factory pre-programmed)
- > 4.5W RF transmitter
- > Adjustable transmitter power 4.5W/1W
- > 38 CTCSS tones (Encoder/Decoder)
- > 83 DCS tones (Encoder/Decoder)
- > Time-Out-Timer / Low battery warning
- > Dual narrow (12.5 KHz) / wide (25 KHz) selectable channel spacing
- > Busy channel lockout
- > PC programmable functions :
channel / frequency / TX RF output
power / Squelch threshold level /
CTCSS (Encoder/Decoder) and DCS
(Encoder/Decoder) tone / SCAN /
Time-Out-Timer / channel spacing

Full set includes main unit, antenna, KB-30L
1750mAh battery pack and quick desk type charger.

400-470 MHz FM 4W

PC PROGRAMMABLE

**400-470 MHz 80CH 4W
UHF FM HANDHELD TRANSCEIVER
PC PROGRAMMABLE**

UHF FM handheld 80 channels professional transceiver, **fully PC programmable** (with optional programming kit), professional construction with **diecast aluminum chassis**. Advanced **4W RF power Mosfet transmitter** with minimum current drain. VOX function, simplex or semi-duplex operation. CTCSS and DCS, selectable frequency step. **Dial multi-function knob**. Programmable by PC or direct programming by keypad. Full set includes electronic desk type rapid charger. Backlighted **dot matrix LCD display** with digital S/Rf meter. Rubber rubber flexible SMA antenna.

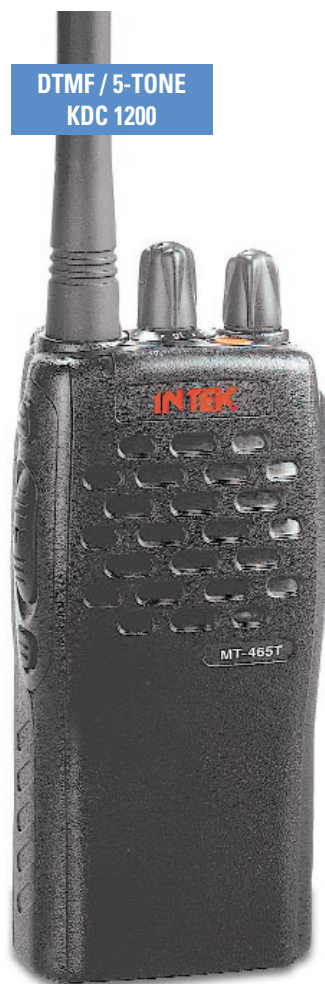

Art. 26005364

Main Features

- > Frequency range 400-470 MHz
- > 80 channels simplex or semi-duplex
- > 4W RF Mosfet transmitter
- > Backlighted dot matrix LCD
- > Channel and 8-digit frequency readout
- > Adjustable RF output power 4W/1W
- > Digital S/Rf meter and battery meter
- > LOCK, CALL, TOT (Time Out Timer)
- > PC programmable functions : channel / frequency / keypad lock manual or automatic / TX power / Squelch level / 50 CTCSS encoder/decoder / 106 DCS encoder/decoder / VOX sensitivity / SCAN frequency step / TOT / keypad program tone / LCD backlight
- > Frequency step 5/6.25/10/12.5/25 KHz

Full set includes main unit, antenna, AT-15 1200mAh battery pack and quick desk type charger.

430-470 MHz FM 5W

PC PROGRAMMABLE

**430-470 MHz 16CH 5W
UHF FM HANDHELD TRANSCEIVER
DTMF, 5-TONE, KDC 1200
PC PROGRAMMABLE**

UHF FM PC programmable professional transceiver (with optional programming kit), professional construction with **diecast aluminum chassis**. **5W RF transmitter**. **VOX** function, simplex or semi-duplex operation. **CTCSS** and **DCS**, selectable frequency step. Two keys programmable for quick access functions. Selective calls **DTMF, 5-tone, KDC 1200**. Remote killing function. **Emergency call with auto ID** function. Multi-language voice channel annunciator. Full set includes main unit, 1500mAh battery pack and desk type rapid charger. Rubber flexible SMA antenna.

Art. 26005602

Main Features

- > Frequency range 430-470 MHz
- > 16 channels / 5W RF transmitter
- > Adjustable RF output power 5W/1W
- > Emergency CALL with auto ID
- > TOT (Time Out Timer)
- > REMOTE KILLING function
- > DTMF, 5-TONE, KDC 1200
- > PC programmable functions : channel / frequency / TX power / Squelch level / 38 CTCSS encoder/decoder / 83 DCS encoder/decoder / VOX sensitivity / SCAN frequency step / TOT
- > Narrow (12.5 KHz)/wide (25 KHz) channel spacing selectable
- > MIL-STD810 standard

Full set includes main unit, antenna, NMH-40 1500mAh battery pack and quick desk type charger.

PMR446 / LPD433

4W / 0.5W / 10mW

**PMR446 8CH / LPD433 69CH
DUAL STANDARD UHF FM 2-WAY RADIO**

Handheld UHF FM 2-way radio for professional and business users. **4.0W RF** power transmitter for International Version or 0.5W (PMR) / 10mW (LPD) max for the European version. Multistandard circuit design, covering both the PMR446 and LPD433 bands, in compliance with the European CE/R&TTE regulations. According to the selected band (PMR or LPD), the CPU automatically controls the various specifications (channel spacing, deviation, selectivity, RF power, etc.) required for the PMR and LPD bands. **Scrambler and 149 channels** on International Version (**30 PMR Simplex channels + 99 LPD Simplex channels, 20 PMR/LPD Semi-Duplex channels**). Adjustable digital Squelch threshold. Backlighted LCD with S/Rf Meter, SCAN, Dual Watch, VOX, Baby Monitor, CCTSS, Lock, Roger Beep, Call. High capacity **1500mAh Ni-MH battery** for over **40 hours battery life**. Earset-microphone jack.

SIGMA NAVY 27

CB 27 MHz marine antenna, white fiberglass whip and base. Whip may be moved vertically and horizontally, ergonomic holding part. Stainless steel hardware. 5 mt. RG58 white cable. Total height 2 mt. Art. 46000130

SIGMA NAVY 160

VHF marine antenna with white fiberglass whip and mounting base. Whip may be moved vertically and horizontally, ergonomic holding part. Stainless steel hardware. 5 mt. RG58 white cable. Total height 1.65 mt. Art. 46000145

SIGMA MARINA 160 T.A.

VHF marine antenna with white fiberglass whip and mounting bracket for top of the mast installation. Ground plane is not required. Stainless steel hardware. Total height 1.65 mt. Art. 46000160

INTEK BTH-8000 SERIES

B) PTT switch box with convenient necklace

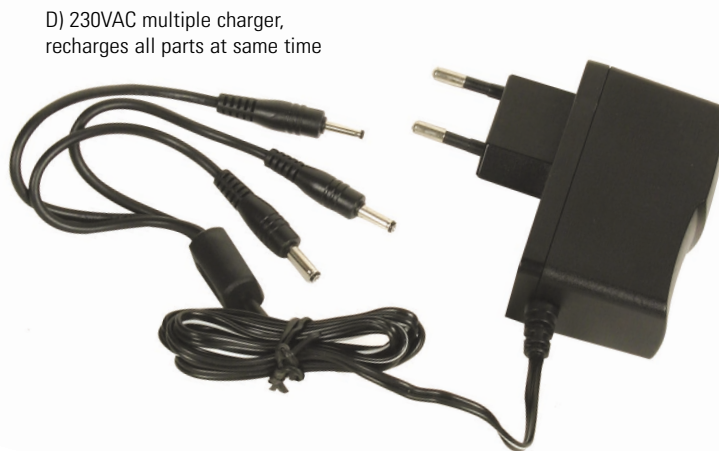

A) earset-microphone with power ON switch

NEW !

C) "BLUETOOTH" communication interface box, to be connected to the earset-mic jack of the radio

D) 230VAC multiple charger, recharges all parts at same time

BLUETOOTH HANDSFREE KIT FOR PMR RADIOS

BTH-8000/K - "K" TYPE CONNECTOR

BTH-8000S/ - "S" TYPE CONNECTOR

BLUETOOTH HANDSFREE KIT FOR HANDHELD TRANSCEIVERS PMR, VHF, UHF, CB, MARINE

Wireless earset-microphone for handheld transceivers, available with "K" type or with "S" type connector. **"BLUETOOTH" technology for high quality audio and speech.** Set is complete with rechargeable batteries and 230VAC multiple charger. Set includes the following main parts : A) earset-microphone with power ON switch ; B) PTT switch box with convenient necklace ; C) "BLUETOOTH" communication interface box, to be connected to the earset-mic jack of the radio ; D) 230VAC multiple charger, recharges all parts at same time. **Battery life is approx. 7 hours (speech mode)** and approx. 200 hours (stand-by mode). Charging time is approx. 2 hours. **This device is using the "Bluetooth" technology, version 2.0.**

Main Features

- > "Bluetooth" Technology version 2.0
- > Speech mode battery life approx. 7 hours
- > Stand-by mode battery life approx. 200 hours
- > Charging time approx. 2 hours
- > 230VAC multiple charger

CONTENT OF THE SET

Earset-microphone with power ON switch

Art. 40006015

These new rubber antennas may be conveniently tuned to the exact specific required frequency, by simply removing the rubber cup and cutting the antenna into the proper length, as per the enclosed frequency-length chart. Once the antenna has been cut, the rubber cup may be re-installed on top of the antenna and fixed with one drop of glue. Antennas are available for VHF/UHF/PMR frequencies.

DC REGULATED POWER SUPPLIES AND DC/DC 24/12V CONVERTERS

INTEK SPS-8040

13.8V 3A

**SWITCHING TYPE REGULATED
13.8V 3A POWER SUPPLY**

Switching type regulated power supply, much more efficient compared to ordinary linear power supplies. A light and compact size package delivers a high output current. Suitable to provide regulated DC power supply to CB, VHF/UHF mobile transceivers. 230VAC 50Hz input and regulated 13.8VDC output with 3A maximum current. **Automatic electronic protection against over-loading and short circuits.** Size mm 90 x 55 x 135. Weight 500 gr.

Art. 30002040

INTEK SPS-8041

3-12V 3A

**SWITCHING TYPE REGULATED
3-4.5-6-7.5-9-12V 3A POWER SUPPLY**

Switching type regulated power supply, much more efficient compared to ordinary linear power supplies. A light and compact size package delivers a high output current. Suitable to provide regulated DC power supply to CB, VHF/UHF mobile transceivers. 230VAC 50Hz input and regulated selectable DC output voltage (3-4.5-6-7.5-9-12V) with 3A maximum current. **Automatic electronic protection against over-loading and short circuits.** Size mm 90 x 55 x 135. Weight 500 gr.

Art. 30002041

INTEK SPA-8100

13.8V 10A

SWITCHING TYPE REGULATED 13.8V 10A POWER SUPPLY

Switching type power supply, with regulated fixed DC output voltage. High stability and protection against radio frequency, suitable to provide regulated DC power supply to CB, VHF/UHF mobile transceivers. 230VAC 50Hz input and regulated 13.8VDC output with 10A maximum current. Internal DC output voltage fine adjustment (13.3-14.5VDC). **Automatic electronic protection against over-loading, over-temperature and short circuits.** Standard terminals and lighter socket. Size mm 181 x 63 x 190. Weight 1.5 kg.

Art. 30002060

INTEK SPA-8230

13.8V 23A

SWITCHING TYPE REGULATED 13.8V 23A POWER SUPPLY

Switching type power supply, with regulated fixed DC output voltage. High stability and protection against radio frequency, suitable to provide regulated DC power supply to CB, VHF/UHF mobile transceivers. 230VAC 50Hz input and regulated 13.8VDC output with 10A maximum current. Internal DC output voltage fine adjustment (13.3-14.5VDC). **Automatic electronic protection against over-loading, over-temperature and short circuits.** Standard terminals and lighter socket. Cooling fan with automatic variable speed. Size mm 181 x 63 x 190. Weight 1.7 kg.

Art. 30002065

INTEK SPS-8250

3-15V 25A

SWITCHING TYPE REGULATED 3-15V 25A POWER SUPPLY

Professional switching type power supply. Selectable adjustable DC output voltage 3-15V or fixed DC output voltage 13.8V. Maximum output current 25A. High stability and **protection against radio frequency**, suitable to provide regulated DC power supply to CB, VHF/UHF mobile transceivers. 230VAC 50Hz input. **Automatic electronic protection against over-loading, over-temperature and short circuits**. Wide analogic voltage and current meters. Size mm 220 x 110 x 225. Weight 3 kg.

10A MAX

24-12V 10A DC-DC VOLTAGE CONVERTER

DC-DC voltage converter, input 24VDC, output 12VDC, maximum peak current 10A. Suitable for use with CB, VHF/UHF mobile transceivers. **Built-in automatic electronic protection against over-voltage, over-current and input polarity reverse.** Size mm 100 x 122 x 60. Weight 700 gr.

Art. 30008010

INTEK RD-20A

18A MAX

24-12V 18A DC-DC VOLTAGE CONVERTER

DC-DC voltage converter, input 24VDC, output 12VDC, maximum peak current 18A. Suitable for use with CB, VHF/UHF mobile transceivers. **Built-in automatic electronic protection against over-voltage, over-current and input polarity reverse.** Size mm 200 x 130 x 66. Weight 1.25 kg.

Art. 30008020

INTEK RDS-12A

12A MAX

24-12V 12A SWITCHING TYPE DC-DC VOLTAGE CONVERTER

DC-DC switching type voltage converter, wide voltage input range 18-30VDC, output 12.8VDC, maximum peak current 12A. Suitable for use with CB, VHF/UHF mobile transceivers. **Built-in automatic electronic protection against over-load and input polarity reverse.** Size mm 168 x 105 x 55. Weight 800 gr.

Art. 30008050

SCANNERS

AIR BAND, VHF, UHF HANDHELD AND DESK TYPE SCANNING RECEIVERS

INTEK AR-109

**VHF AM AIR BAND SCANNER 108-137 MHz
(137-174 MHz NFM BAND / 88-108 MHz WFM FM RADIO BAND)
COMPLETE WITH NI-MH BATTERIES AND 230VAC CHARGER**

Pocket size advanced digital air band scanner. Wide backlit LCD display. Rubber touch finish very compact case, only 26 mm width and 102 gr. weight. Specifically designed for monitoring the air band and the air radio communication traffic, full coverage of the **VHF AM air band (108.000-136.975 MHz), special air band frequency steps at 8.333 KHz or 25 KHz**. Receiver also covers the VHF NFM band (137 - 180 MHz) used by amateur radio operators, civil services, marine band, etc. and the FM radio band (88-108 MHz WFM). Feature packed, including **99 programmable memory channels**, Scan, Dual Watch, selectable frequency steps in the air band (8.333 KHz or 25 KHz), in the VHF NFM band (5-10-12.5-15-20-25-50 KHz), in the VHF WFM band (100 KHz), power save function, keypad lock, keypad beep tone, Busy, Monitor, Skip, Delay. Battery level indicator and **digital S-Meter**. **2 x AA rechargeable Ni-MH batteries and 230VAC charger included**. External earset jack.

Art. 50000109

Main Features

- > VHF FM Air band (108.000-136.975 MHz)
- > VHF NFM band (137-180 MHz)
- > Air Band frequency steps 8.333 KHz or 25 KHz selectable
- > VHF NFM band freq. steps 5-10-12.5-15-20-25-50 KHz selectable
- > FM radio band (88-108 MHz WFM)
- > Backlit LCD display with 7-digit full frequency indication
- > Battery level Meter / digital S-Meter
- > Power Save, Key Lock, Keypad beep tone, Busy, Monitor, Skip, Delay
- > 99 programmable memory channels

FREQUENCY (MHz)	MODE
87.5000 - 107.9000	WFM
108.0000 - 136.9875	AM
137.0000 - 173.9900	NFM

Set includes 2 AA rechargeable Ni-MH batteries and 230V wall charger.

AIR BAND

FM RADIO 88-108 MHz

200 CHANNELS

**SCANNING RECEIVER / 88-174 MHz / 200 CHANNELS
VHF AM AIR BAND / FM RADIO BAND**

Pocket size scanning receiver, frequency coverage 87.5-173.990 MHz, **VHF air band** (AM mode) and **WFM radio band** (88-108 MHz). Selectable frequency step, 10 or 12.5 KHz in the VHF bands and 100 KHz in the FM radio band. Backlighted LCD display, with **7-digit full frequency indication**. **200 programmable memory channels**, 2 selectable frequency bands, channels and memory channels scanning. Programmable priority channels with automatic monitoring and several other functions, including Delay, Lock Out, Hold, Keypad Lock. **Back-up memory** protects loss of stored datas in case of interrupted power. Powered with 3 AA alkaline batteries or rechargeable batteries. External earset/headphone jack. Size mm 53 x 28 x 104. Weight 100 gr.

Art. 48000030

Main Features

- > 88-174 MHz / 200 channels
- > VHF AM Air band (freq. steps 10 or 12.5 KHz selectable)
- > FM radio band (88-108 MHz WFM)
- > Backlighted LCD display with 7-digit full freq. indication
- > Priority, Delay, Lock Out, Hold, Keypad lock
- > 200 programmable memory channels

CB-VHF-UHF

25-512 MHz

80 CHANNELS

**SCANNING RECEIVER / 25-512 MHz / 80 CHANNELS
NFM CB, VHF, UHF BANDS**

Pocket size scanning receiver, only **32 mm thick** and **165 gr. weight**. Frequency coverage 25-512 MHz in 3 bands, including the CB band in NFM mode. Three different pre-programmed frequency bands selectable. Selectable frequency step 5-6.25-10-12.5-20 KHz according to the programmed frequency band group. **Wide backlighted LCD display**, with **full frequency reading** and indication of all enabled functions. **80 programmable memory channels** with direct access, 50 channels/second scanning speed, normal or **Hyper frequency searching speed**. Programmable priority channels with automatic monitoring and several other functions, including Delay, Lock Out, Hold, Keypad Lock. **Back-up memory** protects loss of stored datas in case of interrupted power. Powered with 3 AA alkaline batteries or rechargeable batteries. External earset/headphone jack.

Art. 48000069

Main Features

- > 25-512 MHz / 80 channels (3 band plans)
- > NFM CB, VHF, UHF bands
- > Frequency steps 5-6.25-10-12.5-20 KHz selectable
- > Backlighted LCD display with 7-digit full freq. indication
- > Priority, Delay, Lock Out, Hold, Keypad lock
- > 80 programmable memory channels

FREQUENCY (MHz)	MODE
25.0000 - 87.2625	NFM

UNIDEN UBC785XLT

WIDE BAND 25-1300 MHz

CHANNEL NAMING CTCSS / DCS

1000 CHANNELS AIR BAND

PROFESSIONAL MOBILE WIDE BAND SCANNING RECEIVER

25-1300 MHz / 10 BANDS / 1000 CHANNELS / AM AIR BAND, NFM CB-VHF-UHF BANDS

Professional mobile (or desk type) wide band scanning receiver. Frequency coverage 25 - 1300 MHz, including the AIR band in AM and the CB band in NFM mode. **1000 programmable memory channels** with direct access, divided in 10 banks of 100 channels each. 10 factory pre-programmed searching frequency bands, may be user re-programmed in the following operating modes AM/FM/NFM/WFM, AIR band in AM mode and CB band in FM mode. 3 groups of programmable and selectable frequency bands. Searching speed of 100 steps/second. Data-skip function to skip data transmissions from frequency search. **Channel indication on display may be personalized with up to 16 characters alphanumeric text.** Automatic memory storing of channels with **active voice communications**. Reception or automatic searching of signals with sub-audible tones **CTCSS and DCS**. **Radio may be interfaced to PC.** Back-up memory protects loss of stored datas in case of interrupted power. RF attenuator to reduce strenght of local signals. 230VAC adaptor, car cigarette lighter adaptor plug, 13.8VDC power cord with fuse, telescopic antenna.

Main Features

- > 25-1300 MHz / 10 bands / 1000 channels
- > VHF AM Air band / CB NFM / FM radio (88-108 MHz WFM)
- > AM/FM/NFM/WFM modes
- > CTCSS / DCS
- > Extra wide backlit LCD display with 8-digit full frequency reading
- > Channel indication with up to 16 characters alphanumeric text
- > Auto memory storing of signals with active voice communications
- > 1000 programmable memory channels
- > PC programmable

WIDE BAND 25-960 MHz

12VDC/230VAC 100 CHANNELS

WIDE BAND DESK TYPE SCANNING RECEIVER / 25-960 MHz / 100 CHANNELS

VHF AM AIR BAND / AM-FM RADIO BAND

Desk type wide band scanning receiver, frequency coverage 25 - 960 MHz, 10 factory pre-programmed frequency bands, including VHF air band (AM mode) and AM (520-1720 KHz) and FM (88-108 MHz) radio broadcasting bands. **100 programmable memory channels**, divided in 5 banks of 20 channels each. Searching speed of 25 steps/second. Backlight LCD display, with **7-digit full frequency indication**. **Alarm-clock**. Programmable priority channels, Lock Out, Hold, Delay. Automatic searching of pre-programmed bands or between stored frequency limits. FM/AM external antenna connector, external speaker jack. Complete with 230VAC adaptor, telescopic antenna and AM antenna.

Main Features

- > 25-960 MHz / 100 channels
- > VHF AM Air band
- > AM radio (520-1720 KHz)
- > FM radio (88-108 MHz WFM)
- > Backlight LCD display with 7-digit full frequency reading
- > Alarm-clock
- > Priority channels, Lock Out, Hold, Delay, Auto Search

ALARMS, PAGERS, SAFETY

REMOTE ALARMS, VOICE PAGERS AND SAFETY PRODUCTS

INTEK AP-601

UHF FM REMOTE ALARM SYSTEM

65.000 DIGITAL CODES

2 KM RANGE

DIGITAL CODED UHF FM REMOTE ALARM WITH LCD POCKET PAGER FOR VEHICLES, MOTORCYCLES, BOATS, HOUSES, CAR BOXES, BUILDINGS, ETC.

This set includes a remote pocket pager, that can immediately receive an alarm message from the UHF transmitter unit installed in a vehicle or building. The system may also be used by old persons to recall attention as well as for various other safety applications. The pocket pager has a **wide LCD display** showing the details of the received alarm (example door car opened). The UHF FM transmitter has a **digital coding system with 65.000 codes**, to prevent interferences or faulty alarms. Set includes a **vibration/movement sensor**, with adjustable sensitivity and a small size transmitting antenna. Pager notifies incoming alarm with an **audio tone or with a silent vibration alert** and the LCD display indicates the type of alarm (doors open/closed, trunk open/closed, engine door open/closed, crash, engine started). It also indicates if you are within the transmitter range, time, type of selected alarm and battery level. Pager is powered with one AAA alkaline battery. Various applications of this system also include **wireless remote control of buildings, houses, offices, warehouses, car boxes, etc.** with immediate transmission of an alarm up to a **distance of approx. 2km**, without any wiring or cables.

Art. 70000100

Main Features

- > Frequency range 433.075-434.775 MHz UHF FM
- > 1 channel (spacing >25 KHz)
- > 65.000 digital codes
- > Transmitter power 10mW ERP
- > Transmitter Size mm 91 x 70 x 30 / Weight 100 gr.
- > Transmitter DC input voltage 12.0VDC
- > Receiver power source 1.5V (1 x AAA battery)
- > Receiver Size mm 63 x 44 x 18 / Weight 60 gr.

Set includes transmitter, receiver, vibration/movement sensor, rubber TX antenna, receiver cover, handtrap, AAA alkaline battery.

SUITABLE FOR VARIOUS APPLICATIONS

INTEK RP-600

**NEW !****UHF FM PMR-LPD DUAL BAND VOICE PAGER****8 PMR CHANNELS****69 LPD CHANNELS****UHF FM LPD / PMR DUAL-BAND VOICE PAGER****DESIGNED FOR TOUR OPERATORS, TOURISTS GUIDED TOURS AND CONFERENCES**

RP-600 is a **compact size and light weight UHF FM voice pager**, with advanced hardware and software design and features. It has been specifically designed for **tour operators and for tourists guided tours**. It is also **suitable for use in conferences and meetings**, as well as a **voice pager in voice paging systems (safety, restaurants, hotels, resorts, hospitals, offices, stores, warehouses, etc.)**. Pager may be worn with its convenient necklace or with its belt clip. Voice messages may be heard from the supplied **earset** or from the **built-in speaker**. Pager is **fully programmable by the operator** (frequency channel, CTCSS tone, voice only, voice + vibration alert, vibration alert only, etc.). Once pager has been programmed, user has no access to the programming menu and only the ON/OFF key and the volume controls are usable, this is specially done to prevent tourists from accidentally changing the programmed features. A convenient backlit **LCD display** shows all functions during the programming process and only the volume and battery levels during the normal use. Pager works on total **129 UHF FM channels**: 69 LPD channels (LPD 430 MHz band), 8 PMR channels (PMR 446 MHz band) and **52 private LPD/PMR channels**. **38 CTCSS tones**, busy icon and battery level indicator. Each pager comes complete with necklace, belt clip, earset, 2 x AA high capacity Ni-MH batteries and 230VAC charger.

Main Features

- > 8 PMR446 channels / 69 LPD433 channels
- > 52 private LPD/PMR channels
- > 38 CTCSS tones
- > Backlit LCD display / Busy icon / Battery level indicator
- > Vibration Alert
- > Three operating modes (voice only, vibration only, vibration + voice)
- > Fully programmable by operator

Art. 70000200

**FULLY COMPATIBLE WITH INTEK MT-5050 AND INTEK DRS-5070
PMR/LPD HANDHELD AND DESK TYPE RADIOS**

Set includes 2 AA high capacity rechargeable Ni-MH batteries, 230V charger, earset, belt clip and necklace.

**TOUR OPERATORS****TOURISTS GUIDES TOURS****CONFERENCES**

INTEK RM-446

VOX

433-446 MHz

**UHF FM (433-446 MHz BAND)
ROOM MICRO-TRANSMITTER WITH VOX**

RM-446 is a **UHF FM ambient micro-transmitter**, operating in the **433-446 MHz band** (various frequencies are available). Extremely **high microphone sensitivity** (adjustable) and **VOX function** for automatic transmission start when a sound or voice is detected by the microphone. VOX function may be disabled, in this case the device will continuously transmit. Approx. 3 months operating time (in VOX mode), with one 9V alkaline battery. **Dimensions mm 42 x 23 and only 5 mm thickness**. Power supply voltage 6-14V and current drain only 12-13mA. Signal is transmitted to a **distance of approx. 500 meters**, depending on the local conditions. This product is not CE approved and it may be used only by official state police and other government authorized corps or agencies. Sales and operation of this device are restricted. Please check details with your local dealer or distributor.
